# BE AWARE OF FLU SEASON!

- ★ **Wash** your hands every time you touch a tissue, sneeze or cough into your hand. Throw tissues away once you have used them.
- ★ **Rest** – Have plenty of sleep and rest. Stay home from work or study and away from others while you have a cold or flu.
- ★ **Regular exercise**, a balanced diet and adequate sleep will help keep your immune system strong.
- ★ **Keep hydrated (drink plenty of fluids)** – This will help keep your throat moist and replace fluid lost due to a fever and sweating. Plenty of water is best, however juice and cordial are fine to drink in small quantities.
- ★ *In a medical emergency go to the nearest hospital emergency department or call an ambulance (dial 000). For other medical problems see your local Doctor or health-care professional. 13 HEALTH (13 43 25 84) provides health information.*
