Year 2/3F

It has been a busy start for the Year 3 students. In Science we have been working on our prediction skills and performing many fun, messy experiments to identify the difference between a solid and a liquid and to distinguish the differing speed(velocity) of various liquids.

In Math the students are busy learning about money. The students are enjoying using coins to show numerous ways to achieve a particular amount as well as learning to give change from various objects. The Year 3 students are also happily participating in the learning of a dance routine to share with you on our concert night.
